

WE'D PREFER TO BE OUTDOORS EVERY DAY. BUT WOULD OUR ADVENTURES STILL BE SO SPECIAL WITHOUT THE DAILY OFFICE ROUTINE?

Although we expose ourselves to the elements just for the fun of it in our leisure time, we often don't have any choice in our jobs // And once you've discovered the uncompromising quality of genuine outdoor products, you won't want to set your sights any lower in everyday life either. In terms of robustness and durability, **TATONKA** manufactures its office products with the same standard that applies to all products: the **TATONKA** out-

door standard of material and workmanship. This also applies to the functional details. One example is the Workstation, a laptop case with all-around padding. And the practical thing about it: you don't even have to take your computer out of the protective case if you want to use it. And despite all of the functionality and quality, you'll see on the following pages that no compromises are made in terms of appearances either.
